Climate Active Certification

Why Northmore Gordon? Benefits of becoming certifed Terminology Why Northmore Gordon?

We are a Climate Active Climate Active is an accreditation program for Australian companies to certify their organisations, products, services, events, buildings or precincts as carbon neutral. The program is backed and administered by the Australian government. Companies have to measure their scope 1, 2 and material scope 3 emissions, reduce where possible and offset the remainder by purchasing and retiring offsets. Allowed offsets are LGCs for scope 2 and ACCUs, CERs, RMUs, VCUs or VERs for scope 1 or 3 emissions. Annual reporting is required and published on the Climate Active website. More registered consultant, Climate Active organisation, and offer a Climate Active Service.

We have a track record of successfully executing numerous projects related to net zero emissions roadmaps, carbon emissions reduction, and various sustainable strategies.

Our experience spans a wide range of industries and sectors, making us a trusted partner in helping organizations meet their sustainability goals.

Our services extend beyond just net zero emissions roadmaps. We specialize in conducting Greenhouse Gas Emissions Inventories and carbon accounting, ensuring that your organization gains a comprehensive understanding of its emissions profile.

We tailor solutions to your unique needs and circumstances; we understand that each organization has its own set of challenges and objectives when it comes to sustainability.

Benefits of becoming certifed

Lower your company's emissions & save on energy costs.

Increase corporate reputation, including brand and image.

Connect better with the community and potential to align with SDGs.

Trusted by over +700 Australian Companies

Internationally recognised and accepted.

Terminology

What is Climate Active?

The Climate Active Carbon Neutral Standard, administered by the Australian Commonwealth Government, is the country's primary guideline for businesses pursuing voluntary climate action, helping them achieve carbon neutrality. It measures, reduces, and offsets carbon emissions promoting a sustainable future. The Climate Active stamp drives community engagement and promotes operational savings, improved efficiencies and positive recognition for the company.

What is Carbon Neutral The act of offsetting all scope 1, 2 and 3 emissions associated with a product or service.?

Being carbon neutral involves minimizing emissions whenever feasible and offsetting any remaining emissions by supporting carbon offset initiatives, ultimately achieving a net zero carbon footprint.

What is Climate Active?

Climate Active is an accreditation program for Australian companies, backed and administered by the Australian government, that certifies organisations, products, services, events, buildings or precincts as carbon neutral. Companies must measure their scope 1, 2 and material scope 3 emissions, reduce emissions where possible, and offset the remainder by purchasing and retiring offsets. Annual reporting is required and published on the Climate Active website.

What role does Northmore Gordon play in Climate Active certification?

Northmore Gordon has a specialist team of Climate Active registered consultants, is itself a registered Climate Active organisation, and offers a Climate Active service. The company facilitates the entire certification process for Australian businesses seeking to decarbonise, reduce energy costs, and earn Climate Active certification.

What types of offsets are allowed under Climate Active?

Allowed offsets under Climate Active are Large-scale Generation Certificates (LGCs) for scope 2 emissions, and Australian Carbon Credit Units (ACCUs), Certified Emission Reductions (CERs), Removal Units (RMUs), Verified Carbon Units (VCUs), or Voluntary Emission Reductions (VERs) for scope 1 or 3 emissions.

What is 'Carbon Neutral' according to Northmore Gordon's glossary?

Carbon Neutral is defined as the act of offsetting all scope 1, 2 and 3 emissions associated with a product or service, achieved by minimizing emissions where feasible and offsetting any remaining emissions through carbon offset initiatives, resulting in a net zero carbon footprint.

What services does Northmore Gordon offer beyond net zero roadmaps in relation to Climate Active?

Beyond net zero emissions roadmaps, Northmore Gordon specializes in conducting Greenhouse Gas Emissions Inventories and carbon accounting, giving organizations a comprehensive understanding of their emissions profile, and tailors solutions to each organization's unique needs and circumstances.

What are the benefits of becoming Climate Active certified, according to the page?

Benefits include lowering a company's emissions and saving on energy costs, increasing corporate reputation (brand and image), connecting better with the community and aligning with SDGs, being trusted by over 700 Australian companies, and gaining internationally recognised and accepted status.

How experienced is Northmore Gordon with Climate Active-related projects?

Northmore Gordon has a track record of successfully executing numerous projects related to net zero emissions roadmaps, carbon emissions reduction, and various sustainable strategies, with experience spanning a wide range of industries and sectors, and has helped customers successfully achieve Climate Active Certification.

Is there a way to assess my business's carbon management before pursuing Climate Active certification?

Yes, Northmore Gordon offers a 'Carbon Health Check' quiz that takes approximately 5-10 minutes to complete, allowing a business to do a quick assessment of how well it is managing carbon.

What related articles does Northmore Gordon provide on Climate Active certification?

The page links to three related articles: 'Unlocking Business Success: The Benefits of Becoming Climate Active Certified', 'Why Hiring a Consultant is Your Best Bet for Climate Active Certification in Australia', and 'Why Your Business Should Make Climate Active Certification a Priority in 2024'.

How can a business contact Northmore Gordon about Climate Active certification?

A business can fill out the Climate Active Contact Form on the page, or contact Northmore Gordon's Australia Advisory line at 1300 854 561 (or the Certificates line at 1300 878 500), visit the Melbourne office at Suite 1, Level 4, 607 Bourke Street, Melbourne VIC 3000, or reach the Singapore office at +65 6690 2480, 1 Keong Saik Road, Singapore 089109.
