On-Farm Energy and Electrification Demonstration Program

The On-Farm Energy and Electrification Demonstration Program is a Victorian Government grant initiative offering between \$200,000 and \$750,000 to support industry-led projects that demonstrate innovative energy technologies across Victoria's agriculture sector. With up to \$5 million in total funding available,

[Read More Funding Amount & Key Eligibility Criteria](#)

Funding Amount & Key Eligibility Criteria Grants of \$200,000 to \$750,000 are available to eligible Victorian agricultural industry organisations, farming groups, research bodies and technology providers partnering with eligible organisations. Projects must demonstrate on-farm energy efficiency, electrification or renewable energy technologies, with measurable benefits and industry-wide knowledge sharing. A cash co-contribution of at least 50% of significant asset costs is generally expected.

[Limited-Time Grant](#)

SME Industrial Decarbonisation Fund

The SME Industrial Decarbonisation Fund provides matched co-investment to help Australian manufacturers reduce Scope 1 emissions by transitioning energy-intensive processes away from fossil fuels. Delivered by the Advanced Manufacturing Growth Centre (AMGC), the fund supports eligible projects that improve energy

[Read More Funding Amount & Key Eligibility Criteria](#)

Funding Amount

Co-investment of \$200,000 to \$500,000 per eligible project

Covers up to 50% of eligible project costs

Applicants must contribute at least 50% of project costs in cash

Total program funding of \$10 million is available until funds are exhausted

Key Eligibility Criteria

To be eligible, applicants must:

Be an Australian SME with up to 200 employees

Hold a valid ABN and ACN

Be registered for GST and incorporated in Australia

Deliver the project within Australia

Be able to complete the project by 31 March 2028

Demonstrate measurable reductions in Scope 1 emissions

Transition eligible manufacturing processes from fossil fuels to renewable energy technologies or electrification

Provide evidence of financial capacity to fund their share of the project

Meet the fund's minimum cash co-contribution requirement of 50% of eligible project costs

Applications are assessed on a competitive, continuous basis and funding will remain available until allocated or the program closes.

Limited-Time Grant

Energy Efficiency Grant (EEG)

The Energy Efficiency Grant (EEG) supports Singapore businesses looking to reduce energy consumption and invest in more energy-efficient equipment. The grant co-funds eligible equipment purchases across sectors including Construction, Data Centres, Food Services, Maritime, Manufacturing (including Food Manufacturing) and Retail.

[Read More Funding Amount & Key Eligibility Criteria](#)

Funding Amount

The Energy Efficiency Grant (EEG) provides funding of up to S\$30,000 per company under the Base Tier, covering up to 70% of eligible equipment costs for SMEs and up to 30% for non-SMEs. The Advanced Tier provides up to S\$350,000 per company across both the Base and Advanced Tiers.

Key Eligibility Criteria:

You can apply if you:

Are a business entity registered/incorporated in Singapore.

Have a minimum of 30% local shareholding, except for maritime companies and data centre users.

Have Group Annual Sales Turnover of no more than S\$500 million.

Meet the relevant sector-specific eligibility requirements.

Have not made any payment or deposit to the vendor before submitting your application.

Are purchasing eligible energy-efficient equipment for use in Singapore, subject to the relevant sector requirements.

Limited-Time Grant

Carbon Innovation Grants Program – Round 3

The Carbon Innovation Grants Program – Round 3 is now open to support Western Australian heavy industry businesses and project partners investing in innovative technologies and methods that reduce carbon emissions. With approximately \$3.1 million available in Round 3, the

[Read More Funding Amount & Key Eligibility Criteria](#)

Funding Amount

Approximately \$3.1 million is available in Round 3 across two funding streams:

Feasibility Studies: \$50,000 to \$500,000 per project, covering up to 50% of eligible project costs.

Pilot Projects and Capital Works: \$100,000 to \$1.5 million per project, covering up to 25% of eligible project costs.

Key Eligibility Criteria

You can apply if you:

Hold a current Australian Business Number (ABN) and are registered for GST.

Are an eligible entity, including an Australian corporation, local government authority, not-for-profit organisation, incorporated association, university, Aboriginal and/or Torres Strait Islander corporation, company limited by guarantee, or an eligible partnership or consortium.

Have a project located in Western Australia, or a feasibility study relating to specific WA sites or locations.

Are undertaking a project that is additional to business-as-usual activities and progresses technologies or methods towards commercial viability.

Have a heavy industry business as the lead applicant or project partner, providing a cash or eligible in-kind contribution.

Can meet the relevant co-contribution and project delivery requirements.

Limited-Time Grant

QLD Sustainability Loan – Primary Producer

The Sustainability Loan helps Queensland primary producers invest in renewable energy and energy efficiency projects that improve the long-term sustainability and profitability of their farming business. Delivered by QRIDA, this concessional loan program provides up to \$1.3 million to support

[Read More Funding Amount & Key Eligibility Criteria](#)

Funding available: Loans of up to \$1.3 million

Key Eligibility Criteria

Operate a Queensland-based primary production business.

Have been operating your business for at least two years.

Have at least one person in the business who meets the definition of a primary producer.

Have sound prospects for long-term commercial viability and the ability to service the loan.

Meet the program's eligibility requirements for sustainability projects.

Limited-Time Grant

Cleaner Fuels Program

The Cleaner Fuels Program is a \$1.1 billion Australian Government initiative designed to accelerate the development of Australia's low carbon liquid fuels (LCLF) industry. Delivered by the Australian Renewable Energy Agency (ARENA), the program is intended to support advanced projects

[Read More Funding Amount & Key Eligibility Criteria](#)

[Funding Amount & Key Eligibility Criteria](#)

Up to \$1.1 billion in funding will be available through the Cleaner Fuels Program, with production-linked incentives provided over 10 years. The program is expected to support Australian low carbon liquid fuel projects that are advanced in development, progressing towards final investment decision and targeting production in the near future. Final eligibility and merit criteria are still being developed by ARENA.

Limited-Time Grant

Net Zero Planning Grant

The Net Zero Planning Grant is a NSW Government initiative designed to help eligible NSW businesses strengthen their net zero planning and identify practical actions to reduce emissions. Round 2 provides grants of up to \$25,000, covering up to 50%

[Read More Funding Amount & Key Eligibility Criteria](#)

The Net Zero Planning Grant provides funding of up to \$25,000, covering up to 50% of eligible costs. Funding is provided across two milestones, with up to \$2,000 available for initial net zero planning and up to \$23,000 for detailed net zero implementation activities.

Eligibility: You can apply if you:

Have an Australian Business Number (ABN) and are registered for GST.

Are a business with a NSW site address and business operations in NSW.

Spend at least \$200,000 annually on energy bills at a single NSW site, or \$500,000 annually across multiple sites and operations in NSW. This includes purchased fuels.

Can provide evidence of annual energy expenditure, such as energy bills. Your latest energy bills must be no more than two years old from the date your application is submitted.

Limited-Time Grant

Future Made in Australia Innovation Fund

The Future Made in Australia Innovation Fund is a major Australian Government initiative designed to accelerate Australia's transition to a net zero economy by supporting innovative projects in clean energy manufacturing and low emissions industries. Delivered by the Australian Renewable

Funding Amount & Key Eligibility Criteria

Funding: Up to \$1.5 billion program funding available (individual grant amounts vary by Technology Focus Area).

Who can apply: Australian businesses, government entities, universities, research organisations and CRCs developing eligible renewable energy, electrification or energy efficiency technologies.

State: Australia-wide

Industry: Clean Energy | Renewable Energy | Advanced Manufacturing | Green Metals | Low Carbon Fuels | Renewable Energy Technology Manufacturing

Limited-Time Grant

EnergyTech Market Ready Support (EMRS) 2026

The EnergyTech Market Ready Support (EMRS) 2026 program provides equity-free grants to help Victorian EnergyTech startups accelerate the commercialisation of innovative energy solutions. Designed for businesses that have already entered the market, the program supports defined projects that move technologies

[Read More Funding Amount & Key Eligibility Criteria](#)

[Funding Amount & Key Eligibility Criteria](#)

\$50,000 grant available for Victorian EnergyTech startups that have an in-market solution, hold an ABN, are founder-led, can demonstrate commercial traction (such as pilots, customers or early revenue), and will deliver a defined commercialisation project with at least 80% of project expenditure occurring in Victoria.

Limited-Time Grant

Singapore Pilots for Energy & Enterprise Decarbonisation (SPEED)

Accelerate your decarbonisation project with funding through the Singapore Pilots for Energy & Enterprise Decarbonisation (SPEED) Program The Singapore Pilots for Energy & Enterprise Decarbonisation (SPEED) Program is a new funding initiative designed to help organisations accelerate innovative decarbonisation technologies

[Read More Funding Amount & Key Eligibility Criteria](#)

Funding Available : Grant funding of up to 50% of eligible project costs

Key Eligibility Criteria:

You can apply if you:

Are developing an innovative decarbonisation technology at Technology Readiness Levels (TRL) 6–8.

Your project supports Singapore's decarbonisation goals within the power or industrial sectors.

Your project involves genuine research, development and demonstration (RD&D), creating new knowledge, intellectual property or technological innovation.

Your project contributes to long-term capability development within Singapore.

If your organisation is based overseas, you establish a presence in Singapore and collaborate with Singapore-based companies, research institutes or public agencies.

Limited-Time Grant

Territory Growth Initiative (NT)

Territory Growth Initiative – Funding for High-Growth Northern Territory Businesses The Territory Growth Initiative (TGI) is a Northern Territory Government funding program designed to support high-growth businesses and strategic projects that will drive economic development across the Territory.
