What is the Northmore Gordon website page at /tag/electrification/ about?

It is a tag archive page on the Northmore Gordon website titled "electrification Archives," listing articles and case studies related to electrification.

What articles and case studies are listed under the 'electrification' tag on Northmore Gordon's site?

The page lists: 'How to avoid costly energy project mistakes in manufacturing' (June 26, 2026), 'How Government Energy Grants typically work' (February 27, 2026), 'Electrification with a Payback Plan: Engineering Upgrades for Certificate Upside' (August 15, 2025), 'Better Metering & Monitoring is Growing' (August 15, 2025), the case study 'MainStream Aquaculture: \$19K Grant funds a heat pump electrification project' (August 15, 2025), and 'Powering the future: How we help businesses secure electrification funding' (February 12, 2025).

What is the MainStream Aquaculture case study about?

It describes how a \$19K grant funded a heat pump electrification project for MainStream Aquaculture, aimed at reducing energy bills through electric potential. According to the knowledge base, heat pump technology was evaluated as a replacement for existing gas heating to reduce energy reliance.

What does 'electrification' mean in the context of Northmore Gordon's content?

According to the knowledge base, electrification is the process of converting heating systems to use electricity, requiring electrical, operational and integration work. It represents a key technology transition pathway for reducing reliance on fossil fuels, particularly gas heating systems.

How does electrification fit into Northmore Gordon's Assessment Framework for heating projects?

Per the knowledge base, electrification is one of six key dimensions in the Assessment Framework for comparing process heat project options, alongside useful duty, existing performance, heat recovery, reliability, and economics. The electrification dimension asks what electrical, operational, and integration work would be needed.

What is Northmore Gordon and what does it do?

Northmore Gordon is described in the page's site metadata as an 'Energy Efficiency Consultancy Company.'

How can someone contact Northmore Gordon in Australia?

In Australia, Northmore Gordon can be reached at 1300 854 561 (Advisory) or 1300 878 500 (Certificates), with a Melbourne office at Suite 1, Level 4, 607 Bourke Street, Melbourne, VIC 3000.

Does Northmore Gordon have an office outside Australia?

Yes, Northmore Gordon has a Singapore office at 1 Keong Saik Road, Singapore 089109, reachable at +65 6690 2480.

What article discusses engineering upgrades tied to electrification and certificates?

The article 'Electrification with a Payback Plan: Engineering Upgrades for Certificate Upside,' published August 15, 2025, is listed under the electrification tag, addressing engineering upgrades for certificate upside.

What topics related to energy grants and electrification funding appear on this tag page?

The page includes 'How Government Energy Grants typically work' (February 27, 2026) and 'Powering the future: How we help businesses secure electrification funding' (February 12, 2025), both addressing how businesses can obtain funding related to electrification and energy projects.
