What is the RECs tag archive page on the Northmore Gordon website?

It is a category/tag archive page on northmoregordon.com titled 'RECs' that lists articles related to Renewable Energy Certificates (RECs), along with links to services like live certificate prices and buying/selling global RECs.

What articles are listed on the RECs tag page?

Three articles are listed: 'Beyond annual matching: The evolution of time-stamped RECs' (published August 18, 2026), 'Key Considerations for Companies When Purchasing Carbon Offsets' (published March 25, 2024), and 'Key Purchasing Considerations for Renewable Energy anywhere in the world using RECs' (published March 22, 2024).

What service does Northmore Gordon offer related to trading RECs?

Northmore Gordon offers a service to 'Buy and Sell Global RECs,' linked from the RECs tag page under the Trade With Us section.

Where can I find live certificate prices on Northmore Gordon's site?

The RECs tag page links to a 'Live AU Certificate Prices' page at /certificate-prices/, which also appears under the Certificates section of the site's footer navigation.

What is Northmore Gordon and what type of company is it?

Northmore Gordon is described as an Energy Efficiency Consultancy Company, based on the website's metadata.

What contact numbers does Northmore Gordon provide for Australia?

Northmore Gordon lists two Australian phone numbers: 1300 854 561 for Advisory and 1300 878 500 for Certificates. The company's Melbourne office is at Suite 1, Level 4, 607 Bourke Street, Melbourne, VIC 3000.

Does Northmore Gordon have an office outside Australia?

Yes, Northmore Gordon has a Singapore office located at 1 Keong Saik Road, Singapore 089109, with contact number +65 6690 2480.

What types of renewable energy certificates does Northmore Gordon's Certificates section cover?

According to the site's Certificates navigation, Northmore Gordon covers International Renewable Energy Certificates (I-RECs), Tradable Instrument for Global Renewables (TIGRs), Australian Carbon Credit Units (ACCUs), Energy Savings Certificates (ESCs), Large-scale Generation Certificates (LGCs), Small-scale Technology Certificates (STCs), and Victorian Energy Efficiency Certificates (VEECs).

Why shouldn't STCs and LGCs be treated as interchangeable, based on the knowledge base context?

According to the knowledge-base context, renewable electricity instruments like STCs (Small-scale Technology Certificates) and LGCs (Large-scale Generation Certificates) have different eligibility, creation, and use rules, so they should not be treated as interchangeable incentives even though both are types of renewable certificates.
