What is this Northmore Gordon page about?

This page is the "VEECs" tag archive on Northmore Gordon's website, listing news and articles related to Victorian Energy Efficiency Certificates (VEECs).

What are VEECs?

VEECs, or Victorian Energy Efficiency Certificates, are certificates created by accredited providers for eligible activities under the Victorian Energy Upgrades scheme, representing energy efficiency improvements or emissions reductions achieved in Victoria, Australia.

How are VEECs created?

Accredited providers generate VEECs for eligible activities that meet the specific requirements of the Victorian Energy Upgrades scheme. Eligibility depends on the activity, premises, equipment, and scheme conditions—so a technically sensible upgrade is not automatically eligible.

Should VEECs be compared directly with other certificates like ACCUs or LGCs?

No. VEECs belong to their own programme and should not be compared directly with other environmental certificates such as ESCs, ACCUs, STCs, or LGCs as though they were identical units of emissions reduction or financial value.

What should you clarify when evaluating VEECs for an investment case?

You should request the governing activity and document version, understand the main eligibility assumptions, confirm the calculation basis and evidence responsibilities, clarify the commercial treatment of certificates, and distinguish between indicative gross value and what the customer would actually receive after agreed charges.

What articles related to VEECs are listed on this page?

Listed articles include 'Australian Certificate Markets – August 2026 Update' (Sept 1, 2026), 'Beyond annual matching: The evolution of time-stamped RECs' (Aug 18, 2026), 'Solar irrigation upgrades: Don't let certificate funding go unclaimed' (Aug 10, 2026), 'Australian Certificate Markets – June 2026 Update' (July 1, 2026), 'Welcome to our June 2026 Compliance Update' (June 22, 2026), 'Activity 47: A new way to fund commercial solar in Victoria' (May 25, 2026), 'Are you overpaying for environmental charges on your energy bill?' (May 25, 2026), 'Welcome to our May 2026 Compliance Update' (May 20, 2026), and 'Australian Certificate Markets – April Update' (May 3, 2026).

What is 'Activity 47' mentioned on this page?

Activity 47 is referenced in an article titled 'Activity 47: A new way to fund commercial solar in Victoria,' published May 25, 2026, indicating it relates to funding commercial solar projects in Victoria, likely tied to the Victorian Energy Upgrades scheme.

How can someone contact Northmore Gordon in Australia?

Northmore Gordon can be contacted in Australia at 1300 854 561 (Advisory) or 1300 878 500 (Certificates), with an office at Suite 1, Level 4, 607 Bourke Street, Melbourne, VIC 3000.

Does Northmore Gordon have an office outside Australia?

Yes, Northmore Gordon has a Singapore office, contactable at +65 6690 2480, located at 1 Keong Saik Road, Singapore 089109.

Where can VEECs be found among Northmore Gordon's listed certificate types?

VEECs are listed on the site under 'Certificates' as 'Victorian Energy Efficiency Certificates (VEECs)', alongside other certificates such as International Renewable Energy Certificates, TIGRs, Australian Carbon Credit Units, Energy Savings Certificates, Large-scale Generation Certificates, and Small-scale Technology Certificates.
